Title

Primary prevention of **hypertension**: clinical and public health advisory from The National High Blood Pressure Education Program.

Source

JAMA. 288(15):1882-8, 2002 Oct 16.

Abstract

The National High Blood Pressure Education Program Coordinating Committee published its first statement on the primary prevention of **hypertension** in 1993. This article updates the 1993 report, using new and further evidence from the scientific literature. Current recommendations for primary prevention of **hypertension** involve a population based approach and an intensive targeted strategy focused on individuals at high risk for **hypertension**.
