

THOMSON Innovation

1. 連結至<http://www.thomsoninnovation.com>來進行登入，但由於我們沒有購買此軟體所以要按下”quick launch”

2. 登入資料庫後，可以在左下方的選單中點選”patent search”(專利檢索)

3. 在搜尋欄內打入你所要找尋的專利，我這次是找”motorcycle with electricity”，然後就會顯示出一堆資料，再找尋你所想要參考的點入即可

The screenshot shows the Thomson Innovation website interface in Internet Explorer. The search results page displays a list of patents related to the search term "motorcycle with electricity". The results are sorted by publication date, showing 24 records out of 18,370,069 searched. The first few results are:

Publication Number	Publication Date	Title
US5147077A	1992-09-15	Storage box compartment means for a motorcycle
US4942936A	1990-07-24	Electrohydraulic/air bike
US985517A	1911-02-28	L H DYER MOTORCYCLE
US629837A	1899-08-01	MOTOR CONTROL
US597042A	1898-01-11	MOTORCYCLE
EP1515295B1	2011-09-28	Light emitting device, driving support system, and helmet

The interface includes navigation links like "Return to Search", "Display & Sort Options", and "0 records selected". It also features a sidebar with "Search", "My Account", and "Support" options. The bottom of the page shows the Thomson Reuters logo and copyright information.

5. 以下就是我找到的電動車的專利資料

The screenshot shows the detailed record view for patent US597042A. The page is titled "Record View: Patent US597042A" and includes a "Quick View" section on the left and an "Images" section on the right.

Quick View Section:

- DWPI Title ?**
- Original Title ?**
MOTORCYCLE
- Abstract ?**
- First Claim ?**
I claim, and desire to secure by Letters Pat-ent, is1. In a cycle,the combination of a generator of gas and **electricity**, a gas-engine inechanism secured to the cycle-frame and having a duct connection with the gas-generating apparatus of the generator and having means for transmitting the power of its crank-shaft to the pedal-shaft of the cycle, an electric i omotor having conductor connections with the electrodes of the generatorand havingmeans for transmitting its power to the pedal-shaft of the cycle, and the pedal-shaft having a connection with the driving-wheel shaft of the cycle, substantially as specified.
- Assignee / Applicant ?**
- Inventor ?**

Images Section:

The "Images" section displays a large technical drawing of a bicycle with a motorized frame, labeled "Image 1/4". Below the main image are four smaller thumbnail images labeled 1, 2, 3, and 4, showing different views or components of the bicycle.

The bottom of the page shows the record number "Record 5 of 24" and navigation controls.

心得感想：

這次利用這個資料庫在找尋”電動車”的過程，還找到很多市面上電動車的前身，電動車一代一代的變化與改進，而且也了解到一台電動車的發動原理與裡面所包含的配件及說明，而且因為這個軟體的資料是包含全世界的各種專利，所以我還看到很多比台灣先進的電動車，各式各樣都有。
