University System of Taipei-Library Resource Sharing Platform

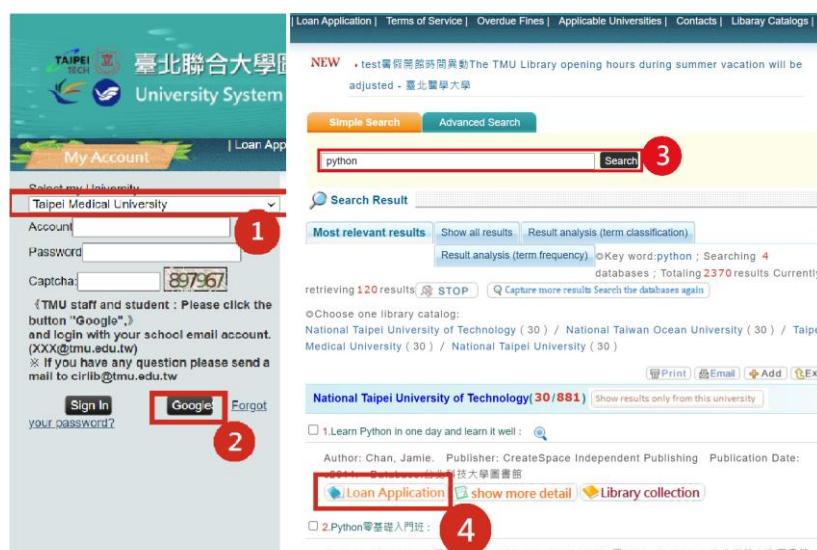

The next Lucky Borrower could be you!

University System of Taipei-Library Resource Sharing Platform (USTP) allows faculty members and students from the four universities—National Taipei University, National Taipei University of Technology, Taipei Medical University, and National Taiwan Ocean University—to request books through the platform and pick them up or return them at their own university library. Each library has its own specialized collections, enabling mutual support and resource sharing among the four institutions.

In addition, the platform will hold the *“USTP Lucky Star event”* in May and October, selecting three winners for the *“Borrowing Lucky Star.”* A separate *“First-Time Platform Borrowers”* event will also be held during the September–October back-to-school period, with three winners selected. All winners will receive a NT\$300 convenience store gift card. Further details will be announced on the library website.
